

Cashless ATM

Grow your business

PBI Global Funding, LLC
"We Get You The Money Fast"

Grow Your Business By Accepting Payments Electronically Through Cashless ATM

Cashless ATM systems offer retailers who cannot use traditional merchant services an alternative option for accepting card payments. It functions in a similar manner to a traditional ATM, but the transaction is handled electronically. Customers can swipe their debit cards for any amount in \$1 increments and receive a printed voucher that can be used to purchase products. Funds are debited from the customers bank account and deposited electronically to the merchants bank account within 3-4 business days.

BENEFITS

- > Reduces physical cash flow
- > No operating costs to the merchant
- > Money goes from machine to merchant bank account (reduce risk)
- > Lowers cost of security teams to move cash
- > Eliminates ATMs upkeep (ie, free up real estate, no need to refill cash, require services)
- > Cashless ATM is small and sits right on a counter up taking up minimal space
- > 24/7 back-end support and assistance
